We work with public, private, parochial, home, and pre-schools to complement their curriculum needs, as well as presenting badge-earning programs for Girl Scouts, Cub Scouts, American Heritage Girls, and Trail Life USA, and also give tours and programs for other community groups, from club meetings to senior living outings.

Winner of a 2021 Mayor’s Preservation Award for our Centennial exhibit and commemorative book, we have been called, “Elgin’s Hidden Gem” and, “a fun-size Field Museum” by our visitors. Follow our Facebook Page (Elgin Public Museum) for constantly updating info on upcoming programs and events, and check out our 2021-22 Educational Programs listed below. 2021-22 EDUCATIONAL PROGRAMS:

ANIMAL ADAPTATIONS (two versions depending on age of students)
Ages 3-10; compatible with U-46 units Needs and Interactions of Living Things (Kindergarten; version for younger kids); Examining Structures—Building Blocks of Life (4th grade; version for older students). How nature equips every animal with special survival tools and skills.

ANIMAL BABIES Ages 3-7; compatible with U-46 unit Life Science: Structures & Behaviors in Organisms (1st Grade). Just like humans, animal kiddos can go through a lot of changes before becoming grown-ups!

DISCOVERING DINOSAURS Ages 3-7 Learn about dinos and make our very own T-Rex skull roar.

GOING INTO/COMING OUT OF HIBERNATION Ages 3-10; compatible with U-46 unit How Does the Environment Affect Organisms? (3rd Grade). Not just bears sleeping in caves, but also “Frogsicles,” bees quivering in a circle to keep their queen warm, and turtles that can breathe through their butts!

THE ICE AGE Ages 5-10; compatible with U-46 unit Climate and Weather Patterns (3rd Grade); Earth Processes (4th Grade). Learn how what’s now Elgin was under a glacier during the Ice Age, and meet EPM’s very own Megafauna mascot, the Giant Irish Deer.

INCREDIBLE INSECTS Ages 3-7. What makes an insect an insect? How many species of insects do entomologists suspect they’ve yet to discover? (Hint: it’s a lot!). But love them or hate them, insects truly are incredible – and essential to life on earth.

INDIGENOUS TECH Ages 5-10; compatible with U-46 unit How Do the Actions & Events of the Past Affect Me Today? (4th Grade). Discover the ingenious ways Native American peoples made tools from nature around them – and try out a few for yourself!
LaSALLE & THE SPIRIT OF EXPLORATION Ages 5-10; compatible with U-46 unit Early Americans and Exploration (5th Grade). In the mid-1970s, Elgin French teacher Reid Lewis and a crew of young men – some still in high school! – re-created the grueling 1681 expedition of explorer LaSalle, retracing the original 3300-mile trek from Montreal to New Orleans by canoe and on foot. What did they learn about the difficulties faced by explorers of yore … and the altered ecology … and the world-changing trade relationship between Europeans and Indigenous peoples of the Americas?

OWLS ON THE PROWL Ages 5-10. You’ll learn why owls may be nature’s best-equipped predators … and we’ll open a real “owl pellet” to see what an owl had for a midnight snack!

PAWPRINTS & POOP Ages 5-10: Yes, you read that right! Learn how to track animals by what they “leave behind.”

ROCKS ROCK! Ages 6-10. A fascinating look at many types of rocks, minerals, geodes, and fossils.

STORYTIME Ages Pre-K through 2nd Grade: Tell us what nature topic you want, and we probably already have a book to read aloud for it … and if not, we’ll find one! Accompanied by a mini-lesson and usually a craft or other activity as part of the hour-long program.

MUSEUM MYSTERY TOUR Ages 10-adult: With 101 years of history behind us, you can guess Elgin Public Museum has some very weird stories in its past! On this guided tour, you’ll learn why we sat empty for thirteen years after the building was completed … our notorious (but no longer with us) two-headed calf … and surely our most macabre mystery of all, our Leopold Birds. How did the taxidermy bird collection of one of the 20th century’s most notorious murderers end up with us? You’ll find out! Great for club and senior living outings.

 Fees subject to change.

Junior Parent and Tot

This program gives you and your child an opportunity to bond and have fun together while learning a variety of sports. This class is great for improving simple motor skills such as catching, throwing, batting, shooting, passing, running and really helps in developing hand eye coordination. Parents participate with the child as we play soccer, basketball, hockey, t-ball, football and other sports.

Junior T-Ball

Players in this program will be more confident in this active class as we work on the proper mechanics of catching, throwing, fielding, base running, and batting. This program will prepare each player for the level II t-ball or coach pitch leagues.

Junior Basketball

Our instructional program is designed to teach the game of basketball at a basic level while making sure the players stay active and engaged the entire class. We will work on dribbling with each hand, passing and shooting technique, and understanding basic offense and defense.

Junior Soccer

Our lesson plan is designed to teach the game by hiding drills in fun games and using association techniques that get down to the players level. We will cover simple foot skills, dribbling, passing, shooting, basic rules, and work on spreading the field. This class will not only keep the players active but will be a great base to prepare them for the next level of play.

Junior Super Sports

This is for the all around athlete or for a child who wants to take a shot at different sports. Stay active and work on balance, motor skills, and hand eye coordination all while learning the rules of baseball, football, floor hockey, soccer, basketball, and more. We will focus on a new sport each class and work on basic rules and mechanics all while we play games.

BMX Racing

BMX Racing is one of the fastest-growing family sports in the country. It’s not uncommon to see three generations out at the track, cheering-on their racer and, sometimes, joining in the fun and fitness BMX Racing offers. Racers from 3-63 yrs of age are a regular part of our racing program, and enjoy a healthy-dose of competition and camaraderie, along with great exercise.

The Hill BMX, at the Elgin Sports Complex, is a favorite of new and long-standing BMX racers alike, and has been serving families in the community for over 25 years. We offer regularly-scheduled racing every Saturday from April through October (weather permitting), and all ages/skill levels are welcomed.

BMX Racing at The Hill is a “show up to sign up” activity that fits in to your family's unique schedule. See the details below for registration times and other particulars. It's time to pull the bikes out of the garage, air up the tires, and hit the track for some quality family time that is so precious these days.

Welcoming new families to the track is a big part of what the all-volunteer team at The Hill BMX does for the community. “New Family Orientation” events are scheduled monthly from April to October, and help beginning riders and parents become “part of the group” from day one.

The track is open for the community to experience for free when sanctioned racing or practice is not in session. Come on out to the Elgin Sports Complex, take a look at the track and maybe even turn a few laps if the weather is favorable. Now is the time to start planning your family’s activities. We hope to see you at The Hill BMX in 2022!

More information can be found on our website, thehillbmxelgin.com, and on our Facebook page (“The Hill BMX Elgin”).

**Hours of Operation:** Saturdays, April-October

**Registration:** 10:30am-12:00pm, with practice for racers during registration hours.

**Open Practice** Thursdays from 6pm-8pm, as scheduled. A small fee is charged.

**New Family Orientation** Monthly “New Family Orientation” sessions take place from April-October to show riders and parents how BMX Racing works, and to answer your questions.

A USA BMX Membership is required during track events, and is available for purchase at the track on scheduled race and practice days. A free one-day membership is available so new riders can try out the track.
